Names:

1-Omar Emad Sayed: 43825

2-Omar Yasser Ali: 43828

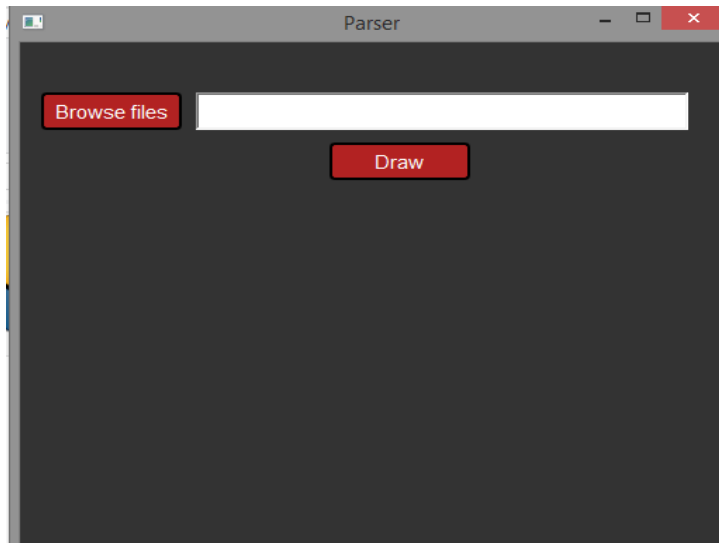

3-Kareem Amr Sabry: 43839

Description:

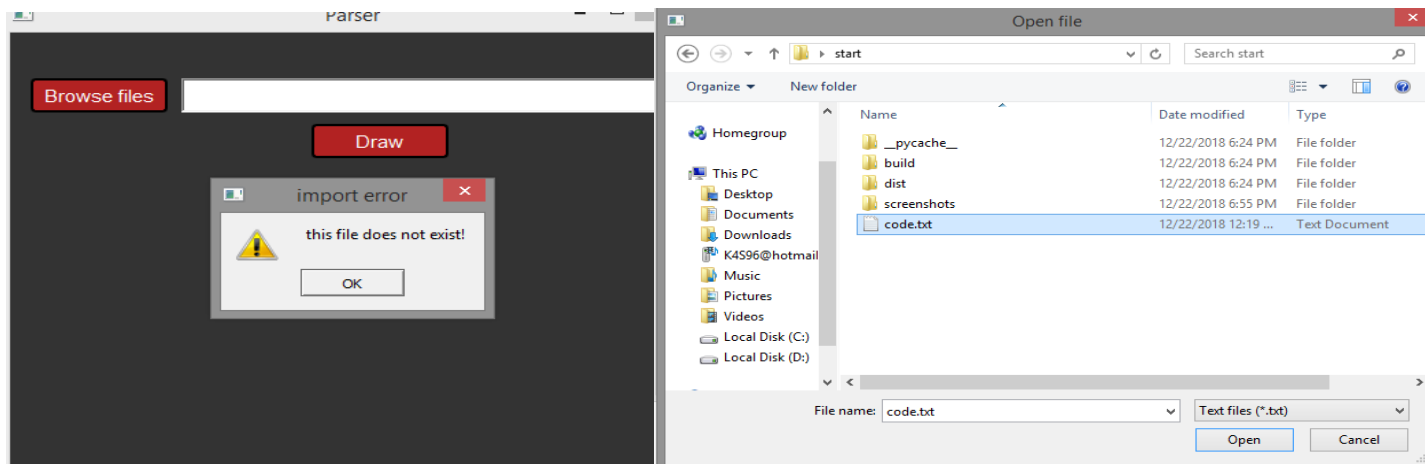

Our program is basically a single exe file that parses a text file containing a snippet code in Tiny language and draws the syntax tree associated with it.

Instructions:

1-open the exe file then select browse files

2-Don't forget to import a text file containing a code written in Tiny language. (you can test the program on the file named "code.txt")

3-click on the draw button to draw the syntax tree for the code chosen
